

INSTRUCTIONS FOR PATIENTS GOING TO THE OPERATING ROOM

- Do not eat or drink after midnight the day prior to your surgery.
- Shower the day of surgery to decrease the chances of infection.
- Ask anesthesia at your pre-admission testing regarding which medications you are allowed to take the day of your surgery.
- Do not take any aspirin or aspirin products the week prior to your surgery. This includes Motrin, Advil, Aleve, Coumadin, Plavix, Vitamin E, Herbs, or Any other anti-inflammatory medication. Notify your ordering physician that you are discontinuing medications like Coumadin, or Plavix.
- Make sure you have someone to drive you back and forth from the hospital the day of your surgery. We cannot allow a cab to pick you up.
- If you DO NOT bring someone with you to drive you home or stay the night of surgery, the hospital will cancel the case.
- You will need to make arrangements for someone to be with you at home the first night of your surgery.
- You will need to return to our office within three business days for a post operative wound check.
- If you have any question, please call the office.
